

# lucas products LUCAS-CIDE®

We created LUCAS-CIDE because we believe that succeeding in the modern world is a group effort. Every Salon and Spa needs engaged and educated staff, financial independence, market consistency, exposure and education of new ideas, and a healthy environment to enable and ensure future growth.

**We've aligned ourselves with forward-thinking industry groups who share this vision.**

Qnity provides education, coaching, and visual tools to beauty and wellness businesses. Bring greater financial wellness to your salon or spa and experience greater profits.

NIC seeks to unite every state in the "United States" around the need for standardized testing requirements and consistent legal guidelines in the practice of cosmetology and associated fields. NIC provides access to information about how other states are addressing these issues; and we offer a forum for the exchange of ideas between states.

Green Circle Salons has over 16,000 members across North America who are making an impact - one bag of beauty waste at a time. Together, we're showing our guests and our communities that we make beauty sustainable.

International Salon Business Network is the only professional association for owners and key executives of multi-unit salons, spas, barbershops, and wellness service businesses, and the franchisors of those concepts.

AACS provides timely updates to members on information and resources about new teaching methods, industry events, and federal regulatory updates. The greatest value of an AACS membership is the networking and resources provided to our members in addressing problems facing beauty education.

## LUCAS-CIDE®

Economical. Powerful. Green. The LUCAS-CIDE product line includes a wide range of acid-balanced, biodegradable, highly concentrated, botanical, and affordable disinfectants. We offer factory-direct shipping and a student certification program.
