

DIRECTIONS FOR USE

LUCAS-CIDE™ for Pedicure Spas

- Mix 1/2 oz. of LUCAS-CIDE™ with 1 gallon of water and run for 10 minutes. Kills 100% of bacteria, viruses and fungi. Refer to pedicure spa manual for water capacity.

LUCAS-CIDE™ 32 oz. Xtra-Life Trigger Sprayer

- Use 1 pump (1/8 ounce) from the LUCAS-CIDE™ measuring pump, then add water to fill line.

Chemical resistant piston bushing and over-size piston provides a longer life without leaks. Xtra-Life Trigger Sprayer outlasts 4 discount sprayers!

LUCAS-CIDE™ Soak Jar

- Use 1 pump from the LUCAS-CIDE™ Measuring Pump, then add water to fill line.

LUCAS-CIDE™ 1/8 oz. Measuring Pump

- Measuring pumps fit concentrate bottles (please specify quart or gallon). Each pump dispenses 1/8 oz. of liquid concentrate per pump. Use one pump of LUCAS-CIDE™ disinfectant cleaner to yield 32 oz.

Pump arrives compressed. Pull up and twist top to prepare for use.

General information: Mixing ratio is 1/2 oz. per gallon of water. Please use appropriate measuring device (i.e. LPC measuring cup, squeeze and pour lid, or pump). Bottle cap is not to be used to measure. Read and follow all directions on concentrate bottle. Handle concentrate with care.
